DETAILED ACTION

Response to Amendment

The reply filed on 1-17-2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Applicant has amended claim 33 to require "an agent that increases or inhibits the activity of a polypeptide comprising an RKIP motif". In reading applicant's arguments, particularly page 5, it is apparent that this recitation means an agent which modulates the activity of a RKIP-motif containing protein. Therefore, the claim as amended, is directed to a process of inhibiting a signal transduction kinase by adding an agent that interacts with a second protein (the second protein having an RKIP motif). This is patentably distinct from the invention originally examined, which was method of inhibiting a kinase by adding an agent (such as a polypeptide with an RKIP motif) that inhibits the kinase. Since the invention claimed is no longer the invention originally elected, the amendment is seen as nonresponsive. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
